

BROW LAMINATION FAQ's

1. **WHAT IS BROW LAMINATION?**

Brow Lamination is a semi-permanent, non-invasive, pain free procedure that temporarily adjusts the direction of the natural brow pattern, making them much easier to manipulate. It uses only your Natural Brows and our products. This creates a Perfectly Groomed Brow with Volume and Fullness.

2. **HOW LONG DOES THE BROW LAMINATION PROCEDURE TAKE?**

Brow Lamination application takes approximately 30 minutes and can be booked as an individual service or in combination with Hairpearl Brow Tinting.

3. **WHAT ARE THE BENEFITS OF BROW LAMINATION?**

Bolder, Fuller, Perfectly Shaped Brows with Greater Volume are achieved in only one session. The products used for Brow Lamination are enriched with Biotin, Urea, Hydrolyzed Silk, Vitamin B3, Hyaluronic Acid, Cocoa Butter, Panthenol, Marshmallow Extract and more to actually promote the growth of your brow hairs over the course of 6-8 weeks,

4. **WHAT IS THE AFTERCARE FOR BROW LAMINATION?**

The aftercare is simple. Do not get your brows wet for 24 hours after receiving the lamination service. Use the Hairpearl Lash & Brow Moist product daily to maintain the healthiest Brows possible.

5. **HOW OFTEN WILL I NEED TO COME BACK FOR BROW LAMINATION?**

The growth cycle of the eyebrow hair is typically 5-8 weeks, so we recommend receiving the treatment every 2 months.
